### Note from the General Manager ~

Summer is now behind us and kids are back in school, but we are headed into the best part of the season for the golf course. September brings cooler weather and better growing conditions for our greens. To take advantage of these climate changes, we will start fall aerification in mid-September giving greens the best chance to heal from the stress of summer heat.

As mentioned in the August newsletter, we must all continue to work together to build our membership base in order to achieve financial success and be able to move ahead with capital improvements. The best way to do this is to reach out to former members, friends and business contacts, and invite them to enjoy our facilities. The Two-Couple Tournament in October provides a great opportunity to extend such an invitation.

I am attempting to get out and play more with the membership. If your group is short a player please continue to check with me to see if I can fill out your group. I especially would like to get out with our new members to get to know them and see what we can do to help them get integrated into the club.

Also if you want help with any part of your golf game I would love to be able to help you. Please schedule a time with me. It is very hard for me to do spur of the moment lessons but I can schedule time a day or two in advance. I know that we do not have an ideal range area but we will find a spot to work on what ever part of your game you need help.

*Brent D. Edmister, PGA General Manager*
